School administrators are responsible for informing their students on the status (sanction / unsanctioned) of athletic competitions advertised / promoted within their building.

Pre-Season Practice Recommendation

The first six (6) days of practice should be used for physical conditioning according to the following provisions. During the first three (3) days, headgear, T-shirts, shorts, and football shoes constitute an acceptable dress and no other football attire should be worn. On days four, five, and six, complete football uniforms may be worn, but ABSOLUTELY no body to body contact should be permitted. Practice during this six-day period should

be limited to two hours a day, excluding flex time (stretching) and breaks. This conditioning week should include callisthenics, kicking, throwing, running, and similar exercises. Arm shields, tackling or blocking dummies, charging sleds or similar devices could be used during these six days. If a student is late coming out for the team, he should still undergo six days of physical conditioning as outlined prior to beginning regular practice and workouts.

Contact Practice

Teams should begin “contact” drills the day following the six days used for physical conditioning. Only one-a-day contact sessions should be conducted. A player should participate in at least eleven (11) separate days of practice, five of which should be in pads, before participating in a football contest or scrimmage with outside competition.

Schools must be sure to follow the New Brunswick Physical Education and Safety Guidelines which state that ‘there must be a minimum of 72 hours between athlete participation in any regulation football games (e.g., between club competition and interschool competition or between interschool competitions).’

* FNB “Head Out Of The Game” Unnecessary Roughness Penalty

1. Any SIGNIFICANT contact delivered TO THE HEAD OR NECK AREA of an opponent with the helmet, facemask, forearm, shoulder or hands shall be ruled as unnecessary roughness.
2. Any SIGNIFICANT contact by a player with their HELMET to an opponent either in attempting a tackle or a block shall be ruled as unnecessary roughness.

For the purpose of this rule, INTENT is NOT a factor when considering if it is a foul or not. The responsibility lies solely with the player initiating the hit or tackle to avoid the contact to the head and neck area.

Penalty: 1st Offence: Team A 15 yards DR

Team B 15 yards, automatic first down for team A.

2nd Offence by SAME PLAYER:

Team A 15 yards DR

Team B 15 yards, automatic first down for team A.

Referee will tell the head coach that next infraction by that player will result in a disqualification.

3rd Offence by SAME PLAYER:

Team A 25 yards DR, player ejected from game.

Team B 25 yards DR, automatic first down, player ejected from game.

Exceptions:

1. Straight arm by ball carrier - A ball carrier is permitted to make contact to the helmet, facemask, or neck area of an opponent attempting to make a tackle with their hand provided that there is **no thrusting motion** of the arm involved in making the contact to the head or neck area. After the hand is in contact with the potential tackler a pushing action is permitted to ward of the tackler. The hand may be on the facemask but must not grasp the facemask.
2. Short yardage plunge - A ball carrier may plunge head first toward a gap when attempting to gain a first down or a play at the goal line, either attempting to score or get out of the end zone. An opponent attempting to stop the runner may make unavoidable contact to the head or neck area of the runner due to the position the runner has assumed to gain the required distance, this contact shall not be considered a foul unless it involves SIGNIFICANT helmet to helmet contact. A short yardage play of this nature does not permit the ball carrier to lower their helmet and target a potential tackler with their helmet.
